substances.

Supporting Evidence: Mr. Campoli is considered to be in violation of his supervised release conditions by consuming a controlled substance, methamphetamine, on or about May 21, 2025.

On May 21, 2025, Mr. Campoli completed a mandatory drug test and test results were presumptive positive for amphetamine. Initially, Mr. Campoli denied any drug use. This drug test was sent to the national laboratory for confirmation, and the drug test report is pending. However, later on June 6, 2025, Mr. Campoli admitted to using methamphetamine on or about May 21, 2025. On June 9, 2025, Mr. Campoli signed a drug use admission form admitting this drug use.

- 6 **Special Condition # 3:** You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.

Supporting Evidence: Mr. Campoli is considered to be in violation of his supervised release conditions by consuming a controlled substance, fentanyl, on or about May 21, 2025.

On May 21, 2025, Mr. Campoli completed a drug test and results were presumptive positive for fentanyl. Mr. Campoli denied using fentanyl. This drug test was sent to the national laboratory for confirmation, and the drug test report is pending.

- 7 **Special Condition # 3:** You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.

Supporting Evidence: Mr. Campoli is considered to be in violation of his supervised release conditions by failing to submit a valid drug test as required on or about May 29, 2025.

On May 29, 2025, Mr. Campoli submitted a drug test which on June 5, 2025, confirmed a dilute result for the validity test for creatinine. Mr. Campoli has been previously warned about providing dilute drug tests, as in the past he has provided dilute drug tests. The explanation the defendant has provided in the past for the dilute drug tests is that he consumes a lot of liquids as he does welding work. However, it should be noted, Mr. Campoli has provided valid drug tests in the past as well while doing the same welding work.

- 8 **Special Condition # 3:** You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.

Supporting Evidence: Mr. Campoli is considered to be in violation of his supervised release conditions by using a controlled substance, methamphetamine, from on or between April 9, to May 23, 2025.

- 9 **Standard Condition # 4:** You must be truthful when responding to the questions asked by the probation officer.

Supporting Evidence: Mr. Campoli is considered to be in violation of his supervised release conditions by failing to be truthful to the probation officer when questioned about drug use on or before June 6, 2025.

On June 6, 2025, Mr. Campoli admitted using methamphetamine on a weekly basis for the last couple of months.
